

MY HAPPY HOUR AT BRILINGTON

Hi, my name is FATIN HAIFAA HASNAA BT MOHD KAMIL. I'm 17 years old. I live at 46f, Mahsuri Apartment, Setiawangsa, Kuala Lumpur with my aunty. I started my first day at Brillington on 2nd February 2010 and I joined SPM leavers program. I joined Brillington because my English is too weak. My aunty also supported me to join Brillington. She told me, English is so important for my future.

Previously, I felt ashamed to speak English. I always think negative about people's opinion. I never spoke English with my friends. I have very low confidence to communicate or speak in English.

On the first day, I felt so nervous because I thought other students are already fluent and the tutor also will be straight. But my thoughts were exactly wrong. The first thing my tutor asked me to do is introduce myself to class. I managed to do it and, instantly, I gained confidence. After more than ten sessions that I attended, I gained my confidence to speak English with my family and my friends. I can feel the difference before and after I joined Brillington Language Centre.

My family also supported me and they were happy with my changing. Here, I also learnt how to make CV's, cover letters, debates, presentations and interviews. I also got new friends at Brillington, and we are all here to improve our English.

At Brillington, we are learnt in an excellent environment. The centre is fully air-conditioned. At the break time, we can use computer and internet. My tutor is Mr. David, he is very funny and kind person. He always backed up and he is supportive when I made mistakes in speaking. I felt so happy to get to know my tutor, Mr. David.

I'm glad and ecstatic to have been here to learn English, because what I learnt here is so much worth it. Thank to all tutors especially to Mr. David, I am thankful and I appreciate every moment here in Brillington.
