

Hello there! My name is Famy Rahman and I stay at Keramat Permai. I am 18 years old (school leaver).

Brillington Language Centre was a very good choice to learn proper English. When I joined this class, I felt so nervous and shy to speak in English here because I thought they will laugh at me when I speak English with wrong grammar.

Day by day, it has improved my English and at the same time has developed me to be a more matured person. The activities were so interesting especially the field trip. I enjoyed asking questions to foreigners and they were so friendly rather than I expected. By the way, I learned many new things here such as how to do a resume, cover later, business presentation, and the most important was interview part. I never learnt these before and I appreciate that.

For me, this centre has helped me with my English a lot. I have improved my confidence level and always think positively in whatever I want to do. I just have to throw away my nervousness and shyness to improve my English. So, I suggest to all SPM leavers to enter this centre and collect some knowledge from an experienced teachers. They all are nice and excellent in English. Get this chance to learn a proper way to speak in English.

Famy Rahman
