

BRILLINGTON & ME

Hi, its me Nur Fatihah.. I'm 18 yrs old and my former school is at SMK Taman Melawati. I have joined Brillington Language Centre since January until the end of March and I tell you its a lot of fun here. During this short period, I have gained lots of experience. Unforgettable experience.. Some of them were; involved in an interview session (face-to-face with the camera) and make a presentation using power point about myself. Yeah, I admit I'm a little bit nervous for the first time but after I motivate myself and think positive of it then I can do it!!!

Not only that, there is a game to test our concentration in hearing and writing.. This game helps me to make my concentration up to a new level. Furthermore, we wrote resume for a job interview, which gives me the advantage for the future! Before this my grammar is everywhere and I lacked confidence when talking with people especially when doing a presentation.. But now, I have no fear about that anymore! My grammar is getting better and my confidence level is high! These last two activities made the most enjoyable day of my life!. That is the 'Field Trip'. We went to KLCC to do a task such as interviewing foreigners, ask about a reservation on a restaurant and others. It helps me a lot actually because I feel like I'm no longer afraid to speak in English with foreigners anymore. This widen my point of view about the importance of English.. Last but not least is the 'Song Performance'. My group has lots of ideas and we had so much fun on that day.. The best part of all is its just awesome to see the bonding between us become stronger.

Actually its not bad at all being in Brillington because I have met many great friends here. They all come from different schools and we exchanged our information together. They are so cool, hot, supporting and friendly...even though I only known them in a short time but its feels like we're in a family!. Together with Mr. David who had taught us so many things, I've become better day by day.. Mr. David is a cool guy and he loves to make jokes.. His English is so powerful and he trained us with what we needed so badly.. Not only that, Mrs. Nan Nee, Mr. Assad and Mr. John also made the environment more cheerful. I will not forget them and always keep in touch with them. Last words from me... :)

BRILLINGTON IS THE BEST!!!!
