

Hi everyone! My name is Nurul Bahiyah Abdul Aziz. This is my first time that I'm writing a testimonial. I hope that all of you enjoy reading my experience since I was studying at Brillington.

First of all, this was my first time I had attended an English class. I am sure this is your first time too right? So how did you feel? It is too good or maybe it is too bad? I am sure that there will be good moments that you will never forget in your life. For me it was such a good thing that I have been through it. During my first class, I thought that there will be a lot of students who have good intentions to study English. So I was so excited but still felt nervous inside. I threw my nervousness far away so I can focus and build my self confidence very well. My thought was wrong.

There were only seven girls including me and there wasn't a boy in the class; but I still enjoyed my first class with them. We did our self-introduction session. It was so funny and interesting. Then, day by day we started having new classmates who were boys and girls. We had a lot of interesting activities such as debate, movie, singing, and a field trip. But the most interesting activity which attracted me was the debate session. I remember the day when we had debate together. Before that, we started to debate on facebook. It was too awesome we talked and gave our own opinions.

Next good experience which I had was the field trip to KLCC with my classmates. We were divided into groups and were asked to cooperate with our team members. All the groups were supposed to interview a few foreigners most of them were on vacation. Actually the day I wrote this testimonial I was so sad because I only had one more day to be with my friends at Brillington. I know that all of you would be like me. I feel sad to say goodbye to my friends and my teacher, Sir Assad; but for me, our friendship and moments that I had with them will never fade. Last but not least, I say bye.
