

Memories in Brillington Language centre

Hye I'm SYUFIQA NUR FATEEN . I'm 18 years old .
My ex-school is SMK PUTERI AMPANG .

Before I entered this class, my English was too bad and I felt ashamed with my all friends. They can speak English better than me. And I'm not a confident girl. So I decide to enter this school leavers program and my mom supported me to go this program.

When I stepped into the class, I felt nervous because I saw so many students were good in their English. But I set my mind that I want to improve my language and build my confidence level.

Now, I'm not shy anymore to speak English with all my friends and they are proud of me because I can speak English.

Last but not least, thanks to my tutor, SIR ASSAD and all my classmates because they supported and taught me. Not to forget my Brillington members.

Love u all !
