

I can Fly!  
Ready ??

Hello there! My name is Sajidah bt Mohd Darus. I joined Brillington on 29th March 2010. First of all, I never had any intention to join any English class or course. But, my friend recommends me to join Brillington. So, I gave it a try. Guess what? I feel really lucky joining Brillington. It gave me lots of opportunities to speak English in public and also in front of my friends. Before this, I was quite scared and didn't have enough nerves to talk in English. Now, I've gained lots of courage and confidence to speak English.

The first class I joined, we were given a task to make a group presentation. It was to introduce our company to public and also recruit workers. I was kind of shy because it was my first class and I was a new student there. But, it wasn't bad at all. It gave me a chance to improve lots of mistakes.

We also did an interview session. I had both experiences as the interviewer and also as an interviewee. It was fun. I never thought that interview session could help me to improve my knowledge and how to adept yourself when you are being interviewed.

About the KLCC Field Trip it was fun and exciting activity. I never thought that I will get a chance to speak with foreigners. Thanks for giving me this opportunity. This trip also gave me lots of chances to speak English. I can speak English in public with help of my group. So, I think it would have been much better if the field trip was added with more activities. It does help us, having fun while learning.

**Yeah, it's effective. Thanks again...**
