

My name is Siti Sarah binti Ahmad Suhaimi. I joined Brillington in the SPM leaver third badge course in 2010. I am writing this to tell about my first-hand experience learning at Brillington. Brillington has helped me in many things especially my English. Not only have I learned to improve my grammar, but also my verbal English as well because Brillington gave me the chance to practice my spoken English properly. This helped me improve myself in conversations and boost up my confidence level.

Besides that, learning at Brillington introduced me to lots of new friends from different schools and areas. Thus, my social skills have also increased positively. I had fun meeting new friends. Here, in the SPM leaver course, Mr. Assad (my teacher) taught me important basic skills and knowledge in preparing myself in facing the next education level and my future career as well as my daily life.

Moreover, Brillington not only did class activities, but also organized a field trip for students to experience the language better. By doing this, I felt that my confidence level has increased highly and have also lessen my shyness and nervousness. In class, I also got the chance to apply computer skills, experience formal debate and interviews, and also increase my public speaking skills. I would say that

my time at Brillington was fun and fulfilling.

I had many new experience and I felt glad that I have entered the class.

**Thank you Brillington.**
